

# Partnering for Impact

Together for a Sustainable and Equitable Future

An invitation to NGOs to collaborate on meaningful, SDG-aligned initiatives that change lives.

# Who We Are

At Cyber Square, we envision a world where AI empowers every learner to shape the future. As an AI-first education and innovation platform, we are committed to building digital skills, nurturing entrepreneurial mindsets, and dismantling inequality through transformative, technology-led learning. We believe that universal access to AI and digital knowledge is the cornerstone of a just and forward-looking society.

## We align our programs with the United Nations Sustainable Development Goals—specifically :

- 4 Quality Education
- 8 Decent Work and Economic Growth
- 9 Industry, Innovation, and Infrastructure
- 10 Reduced Inequalities

Our programs are designed to be customizable, scalable, and community-sensitive, making them ideal for implementation in grassroots contexts.

## Why We Partner with NGOs

We recognize that NGOs are the heart of real-world transformation. Your reach, trust in communities, and lived understanding of local needs are invaluable. Cyber Square collaborates with NGOs to deploy impactful CSR initiatives funded by forward-looking corporates that trust our platform and vision.

## How It Works:

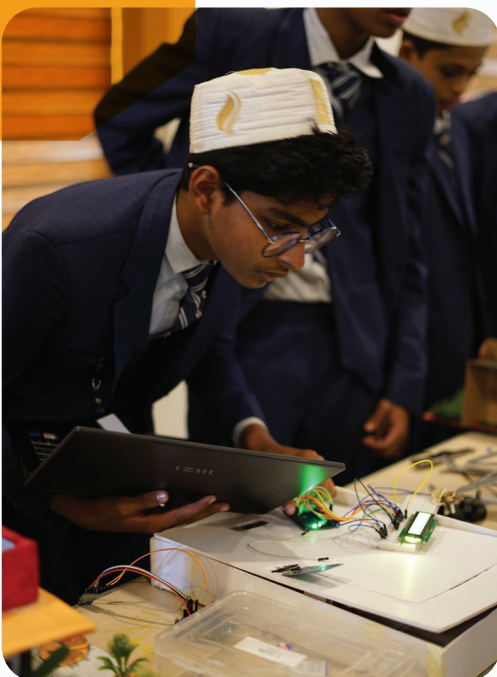

- Corporates approach Cyber Square or you (NGO) for CSR partnerships for AI or Education (aligned to our SDGs)
- We co-design programs that use our AI learning resources, AI training tools, and AI project frameworks
- NGOs implement these programs within their communities
- Together, we deliver measurable, sustainable impact aligned with the SDGs

This partnership ensures that technology and opportunity reach those who need it most — with you as the key delivery partner.

## What We Offer **NGOs**

### Partnering with Cyber Square Gives You:

Access to Ready-to-Deploy Programs Pre-designed modules in digital literacy, coding, innovation, and entrepreneurship for youth, women, and underserved groups.

Corporate-Funded Project Opportunities We bring the CSR funding; you bring local knowledge and implementation expertise.

Training and Capacity Building Support for your facilitators and trainers to deliver content effectively.

Monitoring and AI based Reporting Tools Program templates and tools to help track outcomes and report impact to funders.

Credibility and Shared Impact Stories Amplify your work through case studies, reports, and media created in partnership.

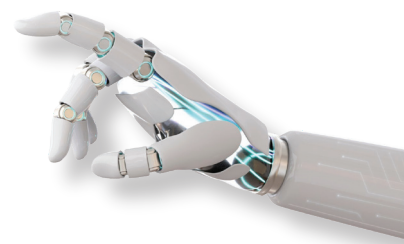

# Let's Build the Future Together

## Partner with Us to Democratize AI

We're looking for visionary NGO partners who believe **AI should empower everyone—not just a few**. If you're reimagining education and expanding digital access at the grassroots, we want to collaborate.

### We're seeking NGOs that:

- Aspire to become **AI-first organizations**, integrating AI into their mission and programs
- Advocate for **digital inclusion and education as fundamental rights**
- Work with **underserved or marginalized communities**
- Have strong **grassroots reach and program delivery capacity**
- Value **transparency, learning, and measurable impact**

Together, we can make AI and education **accessible, ethical, and transformative**.

## Let's Create Impact—

Together We collaborate with NGOs of all sizes to deliver CSR programs that change lives. Whether you're skilling youth, empowering women entrepreneurs, or closing the digital divide—we're ready to partner with you.
